

Tangram – print, cut, play

One square, seven pieces, hundreds of pictures. Cut along the lines below and try the 20 puzzles on the next pages. Match the shape – pieces may not overlap. Warm-up puzzles use fewer pieces; the count is on each card.

1. Print this page at 100% (no "fit to page" scaling).
2. Cut along every line – you get 7 pieces.
3. Printing in black and white? Let your child color the pieces first.
